

Aurion Cloud Technical Consultant

Description

We are looking for an experienced Aurion Developer, with specialist skills and experience in Aurion web recruitment and onboarding, and business process automation (BPA) programming.

Client: Department of the Treasury Role ID: DM-26408

Responsibilities

You must have 5+ years demonstrated experience in the Aurion system and have specialised technical expertise in Aurion web recruitment and payroll onboarding. You will assist in delivering business initiatives to enhance the Aurion Recruitment Module and implement Payroll Onboarding Module into the Treasury environment. You will have the ability to quickly adapt to the Treasury environment by engaging with various stakeholders across the Project and impacted business areas.

Qualifications

You must have a minimum Baseline Security Clearance.

Contacts

Please address the Selection Criteria in a one-page cover letter demonstrating required skills and experience.

SELECTION CRITERIA

Essential experience:

- Demonstrated experience and technical expertise in configuration, administration, and development of Aurion Web Recruitment and Payroll Onboarding.
- Demonstrated experience and technical expertise in Aurion ESS Forms and Business Process Automation (BPA) development and configuration.
- Experience in implementing Aurion solutions within the Australian Public Service sector.

Desirable experience:

- Demonstrated experience across all Aurion Modules (Payroll, Leave, Career Manager, and Timekeeper Modules)

Skills

- Excellent analytical, verbal, and written communication skills.
- Ability to build strong rapport with business stakeholders.
- Excellent problem solving and negotiating skills.
- Excellent stakeholder engagement and management skills.
