

## Sharepoint News Web part advisor

### Contract value

\$ 600 - \$ 800

### Description

The Administrative Review Tribunal(ART) is seeking to engage Professional Services to improve News broadcasting on the ART's SharePoint intranet. The ART has experienced difficulties with the SharePoint News web part since March 2025. SharePoint advised service degradation for this web part in their advisory SP1042262 (27 Mar 2025).

The ART needs advice and assistance to either work with this web part or to purchase a third-party web part to replace this News function on the ART Intranet.

The recommended solution will need to be accompanied by useful documentation and instructions for composing and publishing news, from business unit sites to the Intranet home page.

The Administrative Review Tribunal is an Australian Government tribunal that reviews a wide range of administrative decisions made under Commonwealth and Norfolk Island laws.

The Tribunal commenced on 14 October 2024, replacing the former Administrative Appeals Tribunal. The new Tribunal's website [art.gov.au](http://art.gov.au) was launched at commencement and has now been live for 6 months. We have also recently implemented single sign on access for users via the Tribunal's network.

### Deliverables

1. Agreed plans for the repair or replacement of the ART's Intranet News features
1. Agreed project schedule timelines for these plans
1. Implementation of repair or replacement of Intranet news publishing features
2. User acceptance testing of revised news publishing procedures
1. Plain English documentation and instructions for publishing News
